PROFILE

Results-driven IT Developer with expertise in web application development, eager to apply my technical skills and hands-on experience to drive success within an innovative IT team. Passionate about leveraging cutting-edge technologies and a collaborative mindset to enhance team performance and deliver impactful solutions.

WORK EXPERIENCE

IT Application Engineer Intern 2024 Mar - 2025 Jan

IST SG PTE.LTD

<https://www.bitcare.sg>

- I am working with the network devices used in nurse call system and web application development with NextJS and TailwindCSS.
- Manage website design, content, and SEO Marketing, Branding and Logo Design

Freelancer

2024 - Ongoing

- As a freelance software developer, I successfully completed two key projects: a Hotel Booking Management System and a Note-Taking Android App. These projects showcase my ability to design and develop software solutions that meet client needs, demonstrating my versatility in both web and mobile application development.
